

## Forensic Science, Volume 6, Second Edition Handbook of Analytical Separations

By -

Elsevier Science. Hardcover. Book Condition: New. Hardcover. 1046 pages. Dimensions: 9.6in. x 6.6in. x 2.0in. The book presents the applications of separation methods, mainly chromatography, in forensic practice. The first part, devoted to forensic toxicology, contains reviews on forensic relevant groups of compounds, like: Opiate agonists, cocaine, amphetamines, hallucinogens, cannabinoids, sedatives and hypnotics, antidepressive and antipsychotic drugs, analgesics, antidiabetics, muscle relaxants, and mushroom toxins. In these parts, the preliminary immunochemical tests were also included, together with separation methods. Screening procedures used in forensic toxicology were presented in separate chapters on forensic screening with GC, GC-MS, HPLC, LC-MS, CE, and LC-ICP-MS. In the part on actual and emerging problems of forensic toxicology, following chapters were included: Analytical markers of alcohol abuse, toxicological aspects of herbal remedies, drugs and driving, analysis in alternative matrices, doping analysis, pharmacogenomics in forensic toxicology, and quality assurance. The second part presents application of separation methods in forensic chemistry, and comprises chapters on: Explosives, chemical warfare agents, arson analysis, and writing media. Third part on forensic identification contains chapter on forensic genetics. All chapters are written up-to-date and present specific information up to 2006. The authors of each chapter are known not only from their scientific activity, but...

### Reviews

*This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

-- **Ally Reichel**

*This publication is amazing. It is definitely basic but shocks in the fifty percent of your publication. You won't feel monotony at anytime of your own time (that's what catalogues are for concerning if you question me).*
