Each tiny coral animal lives its little life to create a beautiful, imperishable body, which it leaves as a monument to the social principle, a tribute to love. Tiny intelligent creatures of the sea gave their lives in ages of the past to create bodies of the properties to constitute this mountain of ideal marble, ideal in beauty, invaluable in its utility. Man should lay loving hands upon the products of the love life and labor of Natures intelligent, if microscopic self and he should choose to go forward to complement the work of the simple forms of life, conserving and fulfilling in his creations the beauty present or in prophecy in each one of Natures subjects. ACH wrought alone, yet altogether wrought Unconscious, not unworthy instruments By which a hand invisible was rearing A new creation in the secret deep. Omnipotence wrought in them, with them, by them; Hence what Omnipotence alone could do Worms did. I saw the living pile ascend, The mausoleum of its architects, Still dying upwards as their labours closed. Slime the material, but the slime was turned To adamant by their petrific touch; Frail were their frames, ephemeral their lives, Their masonry imperishable. ---J. Montgomery. LATE number one, top line, illustrates the primary egg cell of the sponge animal in various positions. That cell multiplies and ultimately becomes a complex organization, a multiple cell animal. , Plate number thirteen is a picture of sponges of different kinds and shapes....
