Bibliogov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 34 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO reviewed the Department of Defense's (DOD) environmental cleanup program, focusing on: (1) DOD progress in its cleanup efforts and its estimated costs; (2) DOD plans for completing the cleanup at high priority installations; and (3) the factors that have affected the cleanup of high priority sites. GAO found that: (1) as of September 1993, DOD has spent 3.76 billion on cleanups at its high priority sites, but its progress has been slow and relatively few sites have been cleaned up; (2) most DOD cleanup expenditures have been for environmental studies; (3) DOD estimates that it will cost 18.2 billion to clean up its 254 high priority installations, but actual costs will probably increase; (4) DOD has proposed revising its cleanup process to develop cooperative relationships with regulatory agencies, set up priorities based on risk, accelerate cleanups, increase management attention, and improve the environmental funding process; (5) the Environmental Protection Agency's (EPA) system for identifying DOD high priority sites for cleanup has led to a large number of installations being listed while some more contaminated unlisted sites pose a greater risk; (6) DOD must apply the entire cleanup process to all contaminated sites even if the contamination is minor; (7) for DOD to use its limited cleanup resources efficiently, DOD and EPA must evaluate the large number of DOD installations on the National Priorities List (NPL) and determine which are truly high priority; and (8) factors affecting DOD cleanup of high priority sites include the complex and time-consuming cleanup process, prolonged environmental studies, disagreements with regulatory agencies on the extent of cleanups, cleanup issues that do not pertain to government installations, and scarce resources....
