Barron's Educational Series, 2004. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: back cover Books in the "Manifesto" series clearly and succinctly explain the background to documents that have changed global history. Each title looks at the context in which a manifesto was produced and presents either the full text or significant excerpts. The document's immediate impact is assessed, with explanation of how and why its influence spread to a wider audience. Short and to the point, the books in this series make engrossing reading and give readers insights into the dynamics of modern history. In a post-World War II world of scientific efficiency and technological progress, there was little public concern about the way agricultural technology was affecting people and the Earth. Then, in 1962, Rachel Carson's "Silent Spring" exposed the dangers of DDT and other pesticides. Her book became a bestseller and stimulated widespread public debate. The controversy inaugurated five government inquiries, launched the Environmental Protection Agency, and led to the banning of DDT and several other pesticides. Her book also increased public awareness of environmental issues, heralding an entirely new public awareness of ecological problems in the United States and around the world." Manifesto: Words That Changed the World contains extensive quotes from Silent Spring. Commentary by Alex MacGillivray examines its historical context and worldwide repercussions. "Titles in this series: Civil Disobedience The Communist Manifesto The Declaration of Independence Rachel Carson's Silent Spring.
